Spring	ΠΚ1005	Introduction to the psychology of entrepreneurial behavior	6 PSY4041	Selected Topics in Industrial and Organizational Psychology I	5

*Taught in English

Please check the courses offered in the Winter and Spring semesters of the academic year. If you are interested in coming to Crete at a later year, please take into account that there might be some changes made to this course list. You can see which courses are offered in English (indicated by asterisk) and which are generally offered to Erasmus students (the instructors offer an alternative way of following the course other than attending the lectures, which are in Greek). In any case, you do not need to speak Greek to take the courses. You only need to speak English.
